PROFESSIONAL SUMMARY

Senior DevOps & Cloud Engineer with 6.5+ years of experience in AWS and Azure, specializing in cloud infrastructure, CI/CD automation, Kubernetes, Docker, and Terraform. Proven expertise in designing scalable, secure, and highly available cloud environments, automating deployments, and optimizing release processes for enterprise applications.

ACADEMIC-

Jun 2016 — May 2019	BE, J. D. College of Engineering and Management, Nagpur	RTMNU - MH
Jun 2013 — May 2016	Diploma, Government Polytechnic Sakoli (Bhandara)	MSBTE - MH

EMPLOYMENT HISTORY

May 2025 — Present	Cloud DevOps Engineer, Wipro Limited	Bengaluru - KA	-Managed CI/CD pipelines using Jenkins for application deployments and automation. -Built and maintained Golden AMIs using Packer and AWS EC2. -Developed and maintained AWS infrastructure using Terraform (IaC). -Troubleshoot Jenkins pipeline failures, AMI build issues, and AWS infrastructure problems. -Collaborated with Development, QA, and Support teams to ensure successful deployments across DEV, SIT, UAT, PREPROD, and PROD environments. -Managed cloud infrastructure and secrets using AWS and HashiCorp Vault. -Performed deployment validation, health checks, and production support for multiple insurance applications.
Apr 2022 — Apr 2025	System Engineer, Tata Consultancy Services (TCS)	Bengaluru - KA	-Designed and managed scalable cloud infrastructure across AWS, Azure, and hybrid cloud environments using Infrastructure as Code (Terraform). -Built and maintained CI/CD pipelines using Jenkins, Git, Docker, and Kubernetes, accelerating application delivery and release automation. -Automated infrastructure provisioning, configuration management, and deployment workflows, reducing manual effort and improving operational efficiency. -Managed cloud-native monitoring and logging using Datadog, CloudWatch, and Loggly, ensuring high availability and proactive incident response. -Collaborated with cross-functional teams to optimize cloud deployments, application performance, scalability, and production reliability.
Jul 2021 — Mar 2022	Associate Technology L2, Suremind Solution Pvt. Ltd.	Bengaluru - KA	• Built and maintained CI/CD pipelines using Jenkins, Git, and Maven, automating build and deployment processes. • Containerized applications using Docker and deployed them on Kubernetes, improving scalability and deployment efficiency. • Automated infrastructure provisioning and deployment workflows using Terraform, Bash, and Infrastructure as Code (IaC) best practices. • Managed AWS services including EC2, IAM, VPC, S3, and Load Balancers, ensuring secure, scalable, and cost-optimized infrastructure. • Monitored application and infrastructure performance using Datadog and CloudWatch, enabling proactive monitoring and faster issue resolution.
Aug 2019 — Mar 2021	Client Relationship Executive, ECPL Pvt. Ltd	Bengaluru - KA	• Provided production support for Java applications, ensuring high availability and system reliability. • Troubleshoot production issues, performed Root Cause Analysis (RCA), and resolved critical incidents. • Monitored application performance using Datadog and optimized system stability. • Managed application deployments, patching, upgrades, and security fixes in production environments.

CERTIFICATION

- AWS Certified Solutions Architect – Associate
- AWS Certified Developer – Associate
- AWS Certified AI Practitioner
- AWS Certified Cloud Practitioner
- Full Stack Development Certification – JSpiders, Hebbal

PROJECT EXPERIENCE

May 2025 — Present

AVIVA – Health & Life Insurance Platform

AVIVA Insurance (UK)

Client: AVIVA Insurance (UK)

Role: Senior DevOps & Cloud Engineer

Environment: AWS | Azure | Azure DevOps | Jenkins | Git | Bitbucket | Docker | Kubernetes | Terraform | CloudWatch | Datadog |

Responsibility -

- Managed **CI/CD pipelines** and automated deployment workflows using **Jenkins, Terraform, and Packer**.
- Automated **AMI creation, encryption, staging validation, and production deployments** on AWS.
- Resolved **pipeline failures**, infrastructure issues, and deployment incidents, ensuring reliable production releases.
- Collaborated with Run/Support teams to deliver secure, scalable, and highly available cloud environments.
- Improved deployment consistency through **Infrastructure as Code (Terraform)** and release automation.

Apr 2022 — Apr 2025

METLIFE – Insurance Platform

Client: MetLife Insurance

Role: DevOps Engineer

Environment: AWS | Azure | Azure DevOps | Jenkins | Git | Bitbucket | Docker | Kubernetes | Terraform | Maven | Bash | CloudWatch | Azure Monitor | Datadog | Loggly

Responsibility -

- Designed and maintained **CI/CD pipelines** using **Azure DevOps, Jenkins, Git, and Bitbucket** for automated application deployments.
- Provisioned and managed **AWS** and **Azure** cloud infrastructure using **Terraform** and **Infrastructure as Code (IaC)** principles.
- Deployed and managed containerized applications using **Docker** and **Kubernetes**, ensuring scalable and highly available environments.
- Administered **AWS** services including **EC2, IAM, VPC, S3, Auto Scaling, Elastic Load Balancer, and CloudWatch**.
- Managed **Azure** services including **Virtual Machines, Virtual Network, Azure Storage, Azure Key Vault, Azure Monitor, and Azure Load Balancer**.
- Automated deployment, infrastructure provisioning, and release management processes to improve delivery speed and operational efficiency.
- Monitored cloud infrastructure and application performance using **CloudWatch, Azure Monitor, and Datadog**, ensuring proactive incident resolution.

Feb 2026 — Present

Freelance Projects - (SMR Technologies)

Bengaluru - KA

AI-Powered Email Automation System for Hotel Operations -- www.smrtechnologies.in

Role : Freelance Website Developer & Cloud Automation Engineer

Environment : Hostinger Horizons, N8N, AI Automation, Email Workflows , Website Integration

Responsibility -

- Designed and developed a complete hotel website using Hostinger Horizons.
- Built AI-powered email automation workflows using n8n for booking inquiries and customer responses.
- Integrated website forms with automated email processing and trigger-based workflows.
- Automated customer communication, reducing manual effort and improving response time.
- Delivered end-to-end website development and workflow automation solutions under SMR Technologies.

DECLARATION -

I hereby declare that the information provided above is true and accurate to the best of my knowledge.
